## **SAMPLING QUICK DISCONNECTS** (INTERCHANGABLE WITH FLIGHT REFUELING COUPLERS)

Made entirely of stainless steel, these couplers are fully interchangeable with Flight Refueling models, as well as those available from A. Searle & Co.. Because we make the caps of aluminum, there is no possibility of thread galling as in other brands when the coupler is also aluminum. We used the Gammon tapered gland O-ring seal principle that has proven to be astonishingly reliable for the last 50 years in the Jet Test QD®.

In addition to the two basic models, we also offer each one with either BSP or NPT threads for installation on fueling nozzles. Refer to the chart below.

<b>MODEL No.</b>	<b>TEST FITTING CONNECTION</b>	<b>CAP CONNECTION</b>	<b>TYPE</b>	<b>O-RING</b>
GTP-1206	3/8 BSPP	13/16-16 UN	Shell	Yes
GTP-1206-A	3/8 BSPP	1/2 BSPP	Shell	Yes
GTP-1397	3/8 NPT	3/4 BSPP	Air BP	No
GTP-2479	3/8 NPT	13/16-16 UN	Shell	Yes
GTP-2479-A	3/8 NPT	1/2 BSPP	Shell	Yes
GTP-2480	1/4 NPT	13/16-16 UN	Shell	Yes
GTP-2480-A	1/4 NPT	1/2 BSPP	Shell	Yes
GTP-2481	3/8 BSPP	3/4 BSPP	Air BP	No

NOTE: All BSPP models will be switched over to a blue anodized cap as soon as we deplete our inventory of the current gold anodized caps.
